PROFESSIONAL SUMMARY

Full Stack Developer with 4+ years of professional experience building, maintaining, and optimizing web applications. Strong hands-on experience with ReactJS, JavaScript, REST APIs, Python FastAPI, NodeJS, MySQL, MongoDB, Git, and Microsoft Azure. Experienced in responsive UI development, reusable components, authentication, role-based access, API integration, performance optimization, debugging, deployment, and production support. Experienced in guiding junior developers in application development, troubleshooting, and maintainable coding practices. Strong experience working across the complete SDLC in Agile teams.

TECHNICAL SKILLS

Frontend: ReactJS, Next.js, JavaScript, HTML5, CSS3, Tailwind CSS, Responsive Web Design, Reusable Components

Backend: Python, FastAPI, NodeJS, Django REST Framework, RESTful APIs, Business Logic, API Integration

Database: MySQL, MongoDB, CRUD Operations, Data Modeling, Data Validation

Security: Authentication, Authorization, Role-Based Access, Secure Request Handling

Cloud & Tools: Microsoft Azure, Git, GitHub, VS Code, Selenium, UiPath, Jiffy.ai

Practices: SDLC, Agile, Debugging, Performance Optimization, Clean Code, Production Support, Code Review

PROFESSIONAL EXPERIENCE

Programmer Analyst / Full Stack Developer

Emergere Computing Solutions Pvt Ltd, Coimbatore | Dec 2021 – Present

- Designed, developed, tested, and maintained full-stack web applications using ReactJS, Next.js, Python FastAPI, NodeJS, MySQL, MongoDB, and Azure.
- Built responsive and reusable ReactJS components with focus on usability, maintainability, and consistent UI experiences.
- Developed and integrated RESTful APIs connecting frontend applications, backend services, and databases for end-to-end functionality.
- Implemented business logic, CRUD operations, data validation, authentication, authorization, and secure request handling.
- Worked across the application lifecycle including requirement analysis, development, testing, debugging, deployment, maintenance, and production support.

- Troubleshoot production issues and implemented fixes, enhancements, and performance improvements to improve application stability and user experience.
- Used Git/GitHub for version control, collaborative development, bug fixing, and release support.
- Supported Microsoft Azure deployment, application monitoring, release management, and production maintenance.
- Collaborated with developers, stakeholders, and cross-functional teams in an Agile environment.
- Guided junior developers in feature development, debugging, application workflows, code reviews, and clean coding practices.

Additional Automation Experience

- Developed automation solutions using UiPath, Jiffy.ai, and Python from requirement analysis through deployment and production support.
- Built automation scripts and unattended bots for web login, data retrieval, validation, record updates, email communication, and reporting.
- Implemented error handling, logging, scheduling, and monitoring for reliable production workflows.

KEY PROJECTS

HRMS

ReactJS | Python FastAPI | MySQL | Azure | REST APIs

- Developed and maintained a full-stack Human Resource Management System using ReactJS, FastAPI, MySQL, and Azure.
- Built responsive reusable UI components and integrated REST APIs for scalable business workflows.
- Implemented backend business logic, authentication, data validation, and database integration.
- Developed automated email notifications triggered by business workflows.
- Handled debugging, performance optimization, Azure deployment, production support, and continuous enhancements.

Placement Portal

ReactJS | Python FastAPI | MySQL | Azure | REST APIs

- Developed a web-based placement portal supporting recruitment and student placement workflows.
- Developed and integrated REST APIs for secure data management, application processing, and backend communication.
- Built responsive ReactJS components for smooth navigation and reliable user interactions.

- Implemented online assessment monitoring for tab switching, copy/paste actions, and screen visibility changes.
- Supported deployment, debugging, performance optimization, maintenance, and production support on Azure.

YOURWELLNESSGATEWAY

ReactJS | Django REST Framework

- Contributed to a full-stack application using ReactJS and Django REST Framework.
- Developed reusable React components and integrated frontend functionality with backend REST APIs.
- Implemented business logic and database interactions through Django.
- Optimized application performance and resolved production issues to improve stability and user experience.
- Collaborated with stakeholders and team members to deliver application enhancements.

Official Office Website

Next.js | Tailwind CSS

- Developed and maintained a responsive, mobile-friendly company website using Next.js and Tailwind CSS.
- Built reusable UI components and implemented performance-focused frontend practices.

UVEDA

Next.js | Leaflet.js

- Developed Next.js application features including a dynamic map interface using Leaflet.js.
- Built a chatbot interface to improve user interaction and application usability.

AUTOMATION PROJECTS

Accounts Receivable Notification – UiPath

- Automated web/email processes including data extraction, email generation, status updates, error handling, and logging.

Reconciliation Process – UiPath

- Developed a UiPath REFramework automation for website login, report downloads, SharePoint file retrieval, record updates, validation, and reporting.

Medicaid Insurance Verification – Python/Selenium

- Developed Python Selenium scripts for web data extraction, insurance validation, automated browser actions, and result logging.
-

EDUCATION

Bachelor of Science in Computer Science
Bharathiyar University, Coimbatore | 2018 – 2021
CGPA: 7.0/10

CERTIFICATIONS

- **Microsoft Certified:** Azure AI Cloud Developer Associate
- **Udemy:** Python & Django Full Stack Certification
- **UiPath Academy:** RPA Developer Foundation
- HIPAA Training Certification
